SUMMARY

Frontend developer building responsive, user-friendly, and accessible web applications. Develops complete features by integrating backend services like authentication, storage, and real-time updates. Optimizes performance, writes clean code, and ensures cross-device compatibility. Solves real problems with efficient and scalable frontend solutions.

TECHNICAL SKILLS

Frontend: React.js, Next.js, HTML, CSS, JavaScript, Tailwind CSS, SCSS, Ant Design, Shadcn

Backend-as-a-Service (BaaS): Firebase, Appwrite

Others: Framer Motion, Node.js, Zod, Git, GitHub

PROJECT EXPERIENCE

Car Rental Platform

[Live Project](#) | [GitHub](#)

Tech Stack: Next.js, Firebase, Ant Design

- Implemented Firebase Firestore for real-time booking updates, improving booking confirmation speed by 80%.
- Built a secure authentication and payment workflow using Firebase Auth and Razorpay, reducing failed payments by 30%.
- Developed admin dashboard with Ant Design to manage users, vehicles, and reservations efficiently.
- Achieved full mobile responsiveness and page load time under 1.5 seconds using lazy loading and image optimization.

Mentorship Platform

[Live Project](#) | [GitHub](#)

Tech Stack: Next.js, Appwrite, shadcn

- Designed the front-end architecture and reusable components using Tailwind and Shadcn to reduce UI bugs by 40%.
- Integrated Appwrite's real-time database and authentication system, enabling instant updates and secure access.
- Added a milestone tracking system, leading to 20% higher session engagement among mentees.
- Developed a scheduling feature in Next.js using route-based logic that enabled users to book time slots based on mentor availability.

ACHIEVEMENTS

1st Place – College Hackathon

2024

Led the frontend using Next.js in a team of 4. Developed a web app that allowed students to report and claim lost or found items with photo uploads. Designed a verification system for admins to review and approve claims to prevent misuse. **Tech Used:** Next.js, Firebase (auth & storage).

EDUCATION

Calcutta Institute of Engineering and Management (CIEM), BTech in Computer Science

Aug 2022 – Jun 2026

- CGPA: 7.5
